

SHADIA AMANI

Information Technology Student | Full-Stack Software Developer

amanishadia3@gmail.com | Kigali, Rwanda | github.com/s27315

PROFESSIONAL SUMMARY

Third-year Information Technology student at Adventist University of Central Africa (AUCA), specializing in Networks and Communication Systems (overall GPA 13.19/20). Full-stack developer experienced with HTML, CSS, JavaScript, React, Next.js, Java (OOP), C, and SQL databases, with 25+ active GitHub repositories spanning web applications and enterprise-style Java systems. Strong foundation in networking, Linux administration, databases, and software engineering practices, combined with proven communication and project-delivery skills from a front-end development bootcamp. Seeking to apply technical skills and a fast learning ability in a hands-on internship role.

EDUCATION

BSc Information Technology – Networks & Communication Systems

2023 – Present

Adventist University of Central Africa (AUCA), Kigali, Rwanda

- Overall GPA: 13.19/20 | Major GPA: 13.01/20 (Second Class Honours, Upper Division) — Campus Discipline: Good

WORK EXPERIENCE

Web Development Trainee — She Can Code Training Program

Jan 2025 – May 2025

- Completed an intensive front-end web development bootcamp, graduating with a portfolio of live projects
- Built and deployed responsive web applications using HTML, CSS, JavaScript, and React, version-controlled on GitHub
- Collaborated in agile team environments, strengthening peer-review, debugging, and teamwork skills
- Gained hands-on experience with Git version control and modern deployment/CI-CD workflows

Independent Story Writer & Digital Content Creator — Wattpad

2023 – Present

- Published original storytelling content, building a readership of 500+ across multiple stories
- Grew audience engagement through multi-platform social media outreach and content promotion
- Designed custom promotional materials and cover art, applying basic visual branding and design skills

KEY PROJECTS

Laundry Management System (Java)

- Full Java application managing order tracking, customer records, and payments, built using OOP principles, encapsulation, and data validation

10 Enterprise Java Systems (Java OOP)

- Designed and built 10 complete systems (Hospital, Banking, School, Hotel, Airline, Library, Real Estate, Payroll, Vehicle Rental, Online Shopping) demonstrating inheritance, encapsulation, and exception handling

She Can Code Web Projects (HTML / CSS / JavaScript / React)

- Responsive layouts and interactive React-based UI components, hosted on GitHub (github.com/s27315)

TECHNICAL SKILLS

- Web Development: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js
- Programming: Java (OOP), C, Object-Oriented Design, Data Structures
- Databases & Tools: MySQL, Database Management Systems, Git & GitHub (25+ repositories)
- Networking & Systems: Computer Networks, Routing & Switching, Linux Administration, Operating Systems, Mobile Communications
- Other: Creative Writing, Content Strategy, Social Media Management, Agile Teamwork

LANGUAGES

Kinyarwanda (Native) | English (Proficient — Certified) | French (Basic)

SOFT SKILLS

Communication & Storytelling, Leadership & Initiative, Problem Solving, Public Speaking, Time Management, Agile Teamwork, Digital Literacy
